

Massive support to United Forum – will reach 65% of Total Votes

The last few days of the election campaign has seen the ever-increasing support to the United Forum and BSNL Employees Union. Report from all circles indicates a massive victory for United Forum. Leaders of all the constituent Unions were in the field covering all parts of the country. The last two days campaign has been extra-ordinary with extra ordinary results.

According to the latest reports from the Circle Secretaries, BSNLEU will be getting more than 1,50,000 to 1,60,000 votes in the verification. The NFTE-FNTO is poised to get between 70,000 to 80,000 votes. The total votes is 2,47,757. There is a chance that the percentage of voting may increase. The votes for the unions which are standing on their own will be negligible. The workers are determined to have a strong alliance to win and they have decided to support the United Forum.

The voting is expected on the following pattern:

Total Votes	=	2,47,757		
BSNLEU (United Forum)	=	1,50,000 – 1,60,000	60% to	65%
NFTE (NFTE-FNTO Alliance)	=	70,000 – 80,000	28% to	32%

We call upon all to ensure that maximum workers participate in the poll thus increasing the percentage of voting.

We thank and congratulate the workers for their massive and determined support.
