

When will they stop this drama?

“CMD BSNL has been requested by NFTE to settle the wage revision and BSNLEU should not be allowed to use it's veto power.”

NFTE has made the above updating on their website on 05.09.2009.

Even when the British Imperialists were ruling our country, the great Tarapada Mukherjee, Pioneer of the P&T trade union movement declared, ***“workers are not beggars to accept what is given. What they want is not any one's mercy, but justice.”*** NFTE, which claims to have come on the footpaths of Tarapada Mukherjee, seems to have totally forgotten what he had said.

As per their above updating, NFTE has requested the CMD to settle the wage revision. This is nothing but asking the management to implement a 10 year wage revision. Further, they have told the management not to allow BSNLEU to use it's veto power. Every one knows that BSNLEU is fighting for a 5 year agreement and that is why management is not able to implement a 10 year agreement. According to NFTE, this is using of veto power by BSNLEU. They do not want BSNLEU to use it's veto power against a 10 agreement being imposed by the management.

We really sympathise with NFTE. On side they say united struggles are required for settlement of wage revision. On the other side they have joined hands with the management and request them to impose a 10 year wage settlement on the workers. When will they stop this drama?
